SUMMARY

Fresh graduate majoring in mathematics. Interested in computational mathematics and applied mathematics. Passionate in software engineering, machine learning, and graphic design. Eager to learn and explore new things.

TECHNICAL SKILLS

Programming Languages: Python, Javascript, Typescript, SQL

Frameworks: TailwindCSS, Next.js

Libraries & Tools: NumPy, Pandas, Scikit-learn

PROJECTS

Personal Website

Frontend Project

Jan 2026

Next.js, TailwindCSS

- Build modern website with Next.js and deploy it in Vercel.

EXPERIENCES

Graphic Designer

Department of Mathematics UGM

Aug 2025 - Oct 2025

Part-time

- Created social media post designs
- Documented events held by department

Web Developer

Lomba Matematika Nasional & Seminar Nasional Matematika UGM

Jan 2023 - Dec 2024

- Develop LMNas and Semnastika website with HTML and TailwindCSS through CMS (Wordpress)

Machine Learning Cohort

MSIB Bangkit 2024

Feb 2024 - Jun 2024

- Study about machine learning and deep learning with TensorFlow
- Build applications with other cohorts as final project

Laboratory Assistant of Computational Mathematics

Department of Mathematics UGM

Feb 2024 - Jun 2024

- Teach and guide students to understand mathematics algorithm in Python
- Arrange weekly learning modules with other assistants
- Create and grade weekly assignments with other assistants

EDUCATIONS

Universitas Gadjah Mada

B.S. in Mathematics

GPA 3.40/4.00

Aug 2021 – Nov 2025

CERTIFICATES

- MSIB Bangkit 2024 - Machine Learning
