

UI/UX

Portfolio

2026

Hello, my name is **Dimas**. Nice to meet you!

Graphic designs always take my interests, and UI/UX is one of the branch that took my interests. During my college, I often join organizations and events that gives me opportunity to express and improve my interests in graphic designs.

Mainly, I use **Figma** to create guidelines and the initial design. I'm kind of into **minimalist** design style, but I'm open to learn new styles as well. Also, I can slice the design to fully functional website with modern framework such as **Next.js**.

| Experiences & Educations

LMNas UGM

Web Developer

Mar 2023 - Dec 2023

Responsible to develop and maintain Semnastika 15 webpage with HTML and CSS through CMS (Wordpress).

Web Developer

Mar 2024 - Dec 2024

Responsible to develop and maintain Semnastika 16 and LMNas 35 webpage with HTML and TailwindCSS through CMS (Wordpress).

Universitas Gadjah Mada

Bachelor of Mathematics

Aug 2021 - Nov 2025

Graduated with GPA **3.40/4.00**. Choose computational mathematics as undergraduate thesis topic. Active in some faculty organizations and events.

Tools Proficiency

Design

Intermediate

Layouts; Grid system; Vector based; Clean design

Intermediate

Vector based; Printable design; Poster design

Beginner

Mockup; Raster based; Poster design

Front End

Intermediate

Static website; Grid design; Web content

Intermediate

Styling; Utility class; Mobile first design; Responsive layout

Intermediate

DOM (Document Object Model) manipulation; Event handler

Beginner

Javascript superset; Type validation; Fetch data

Intermediate

React.js framework; Fullstack framework; App router

Back End

Beginner

REST API; Route handlers; Fullstack framework

Beginner

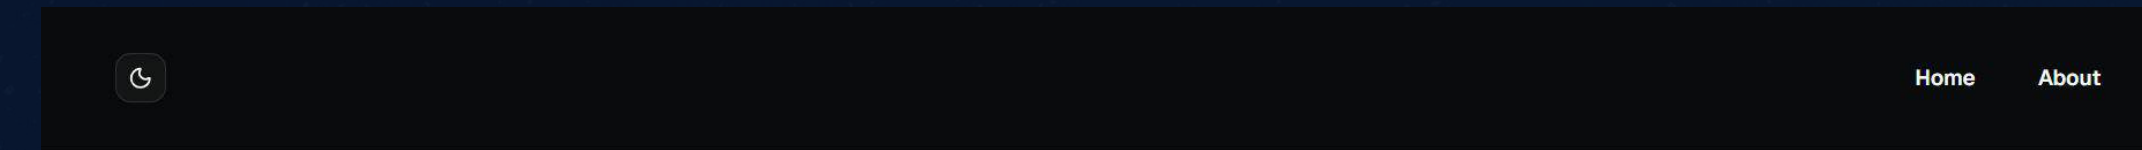

Python based; REST API; Open API

Personal Projects

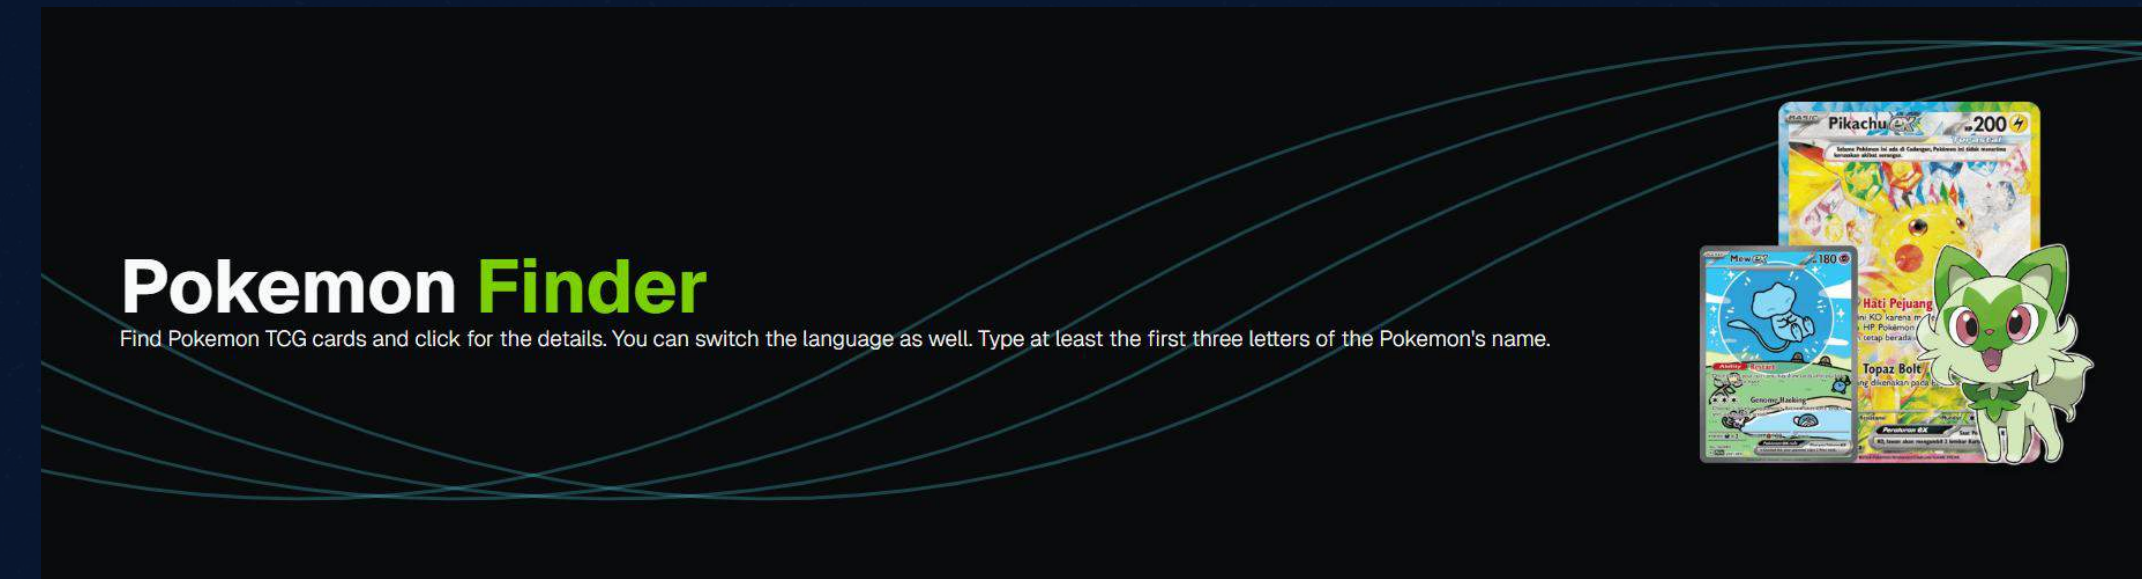

UI design of **Pokemon Cards Finder**. Made with **Figma** and planned to be implemented as web interface.

Navigation Bar

Hero Section

Filter/Search Section

Contents

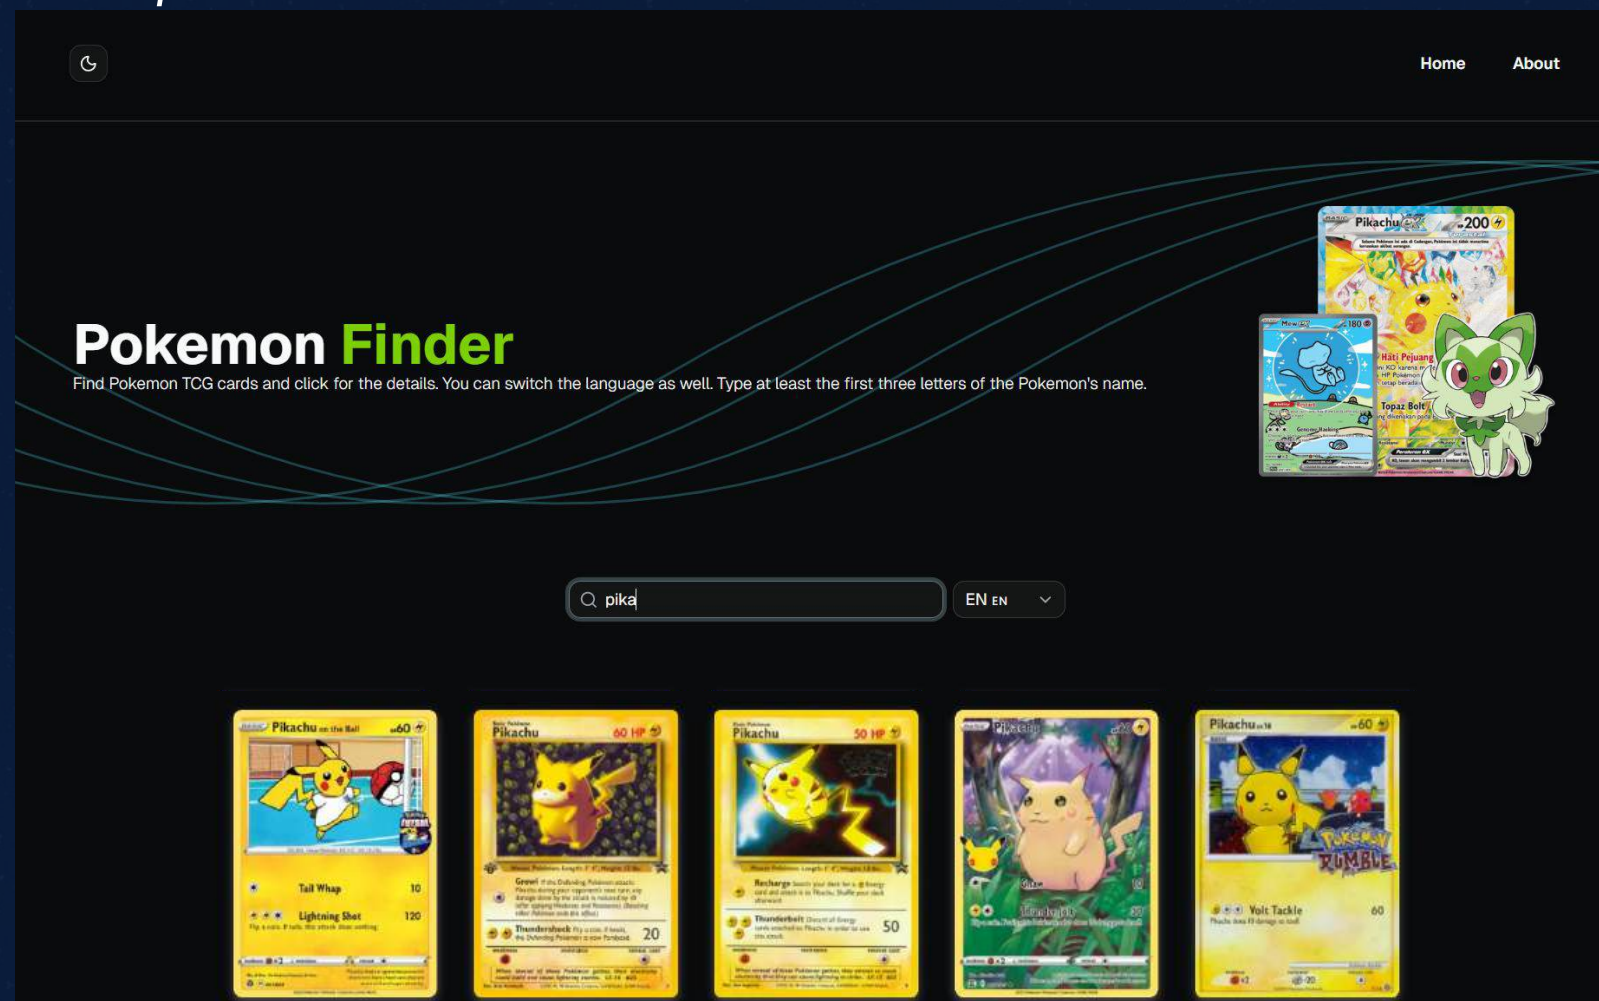

Then, I made another layout to make it **responsive** (accessible from every device). The three essentials are : **Desktop, Tab, Phone**

Personal Projects

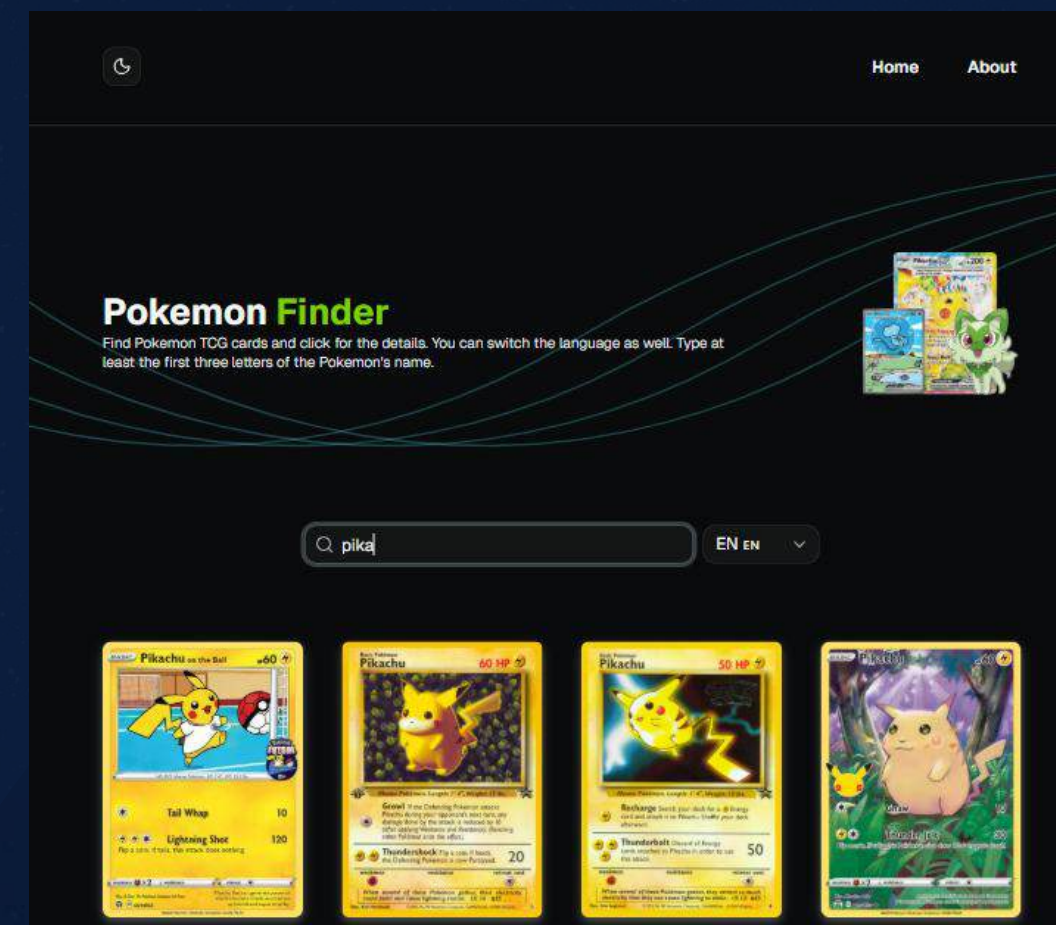

Last, I **slice** the design into real **website** with modern frameworks such as **Next.js**.
I do it manually or sometimes with help of Gemini Assist for code suggestions.

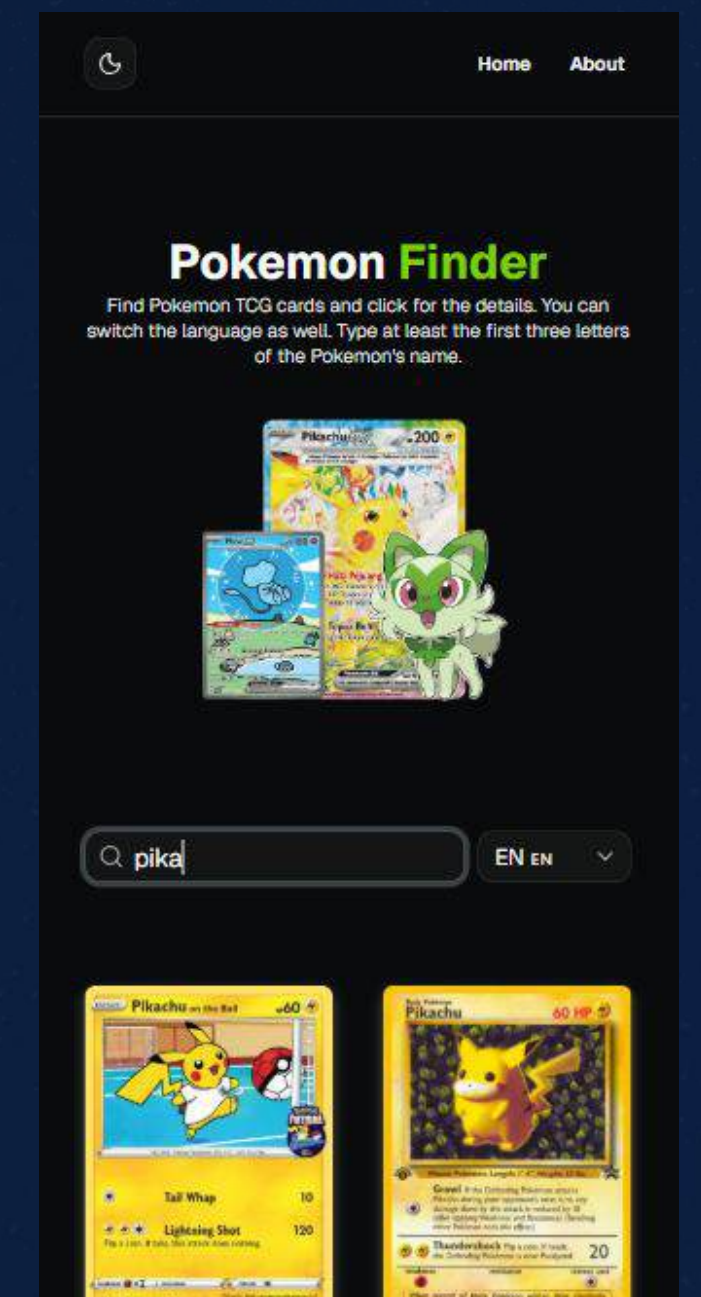

Desktop

Tablet

Phone

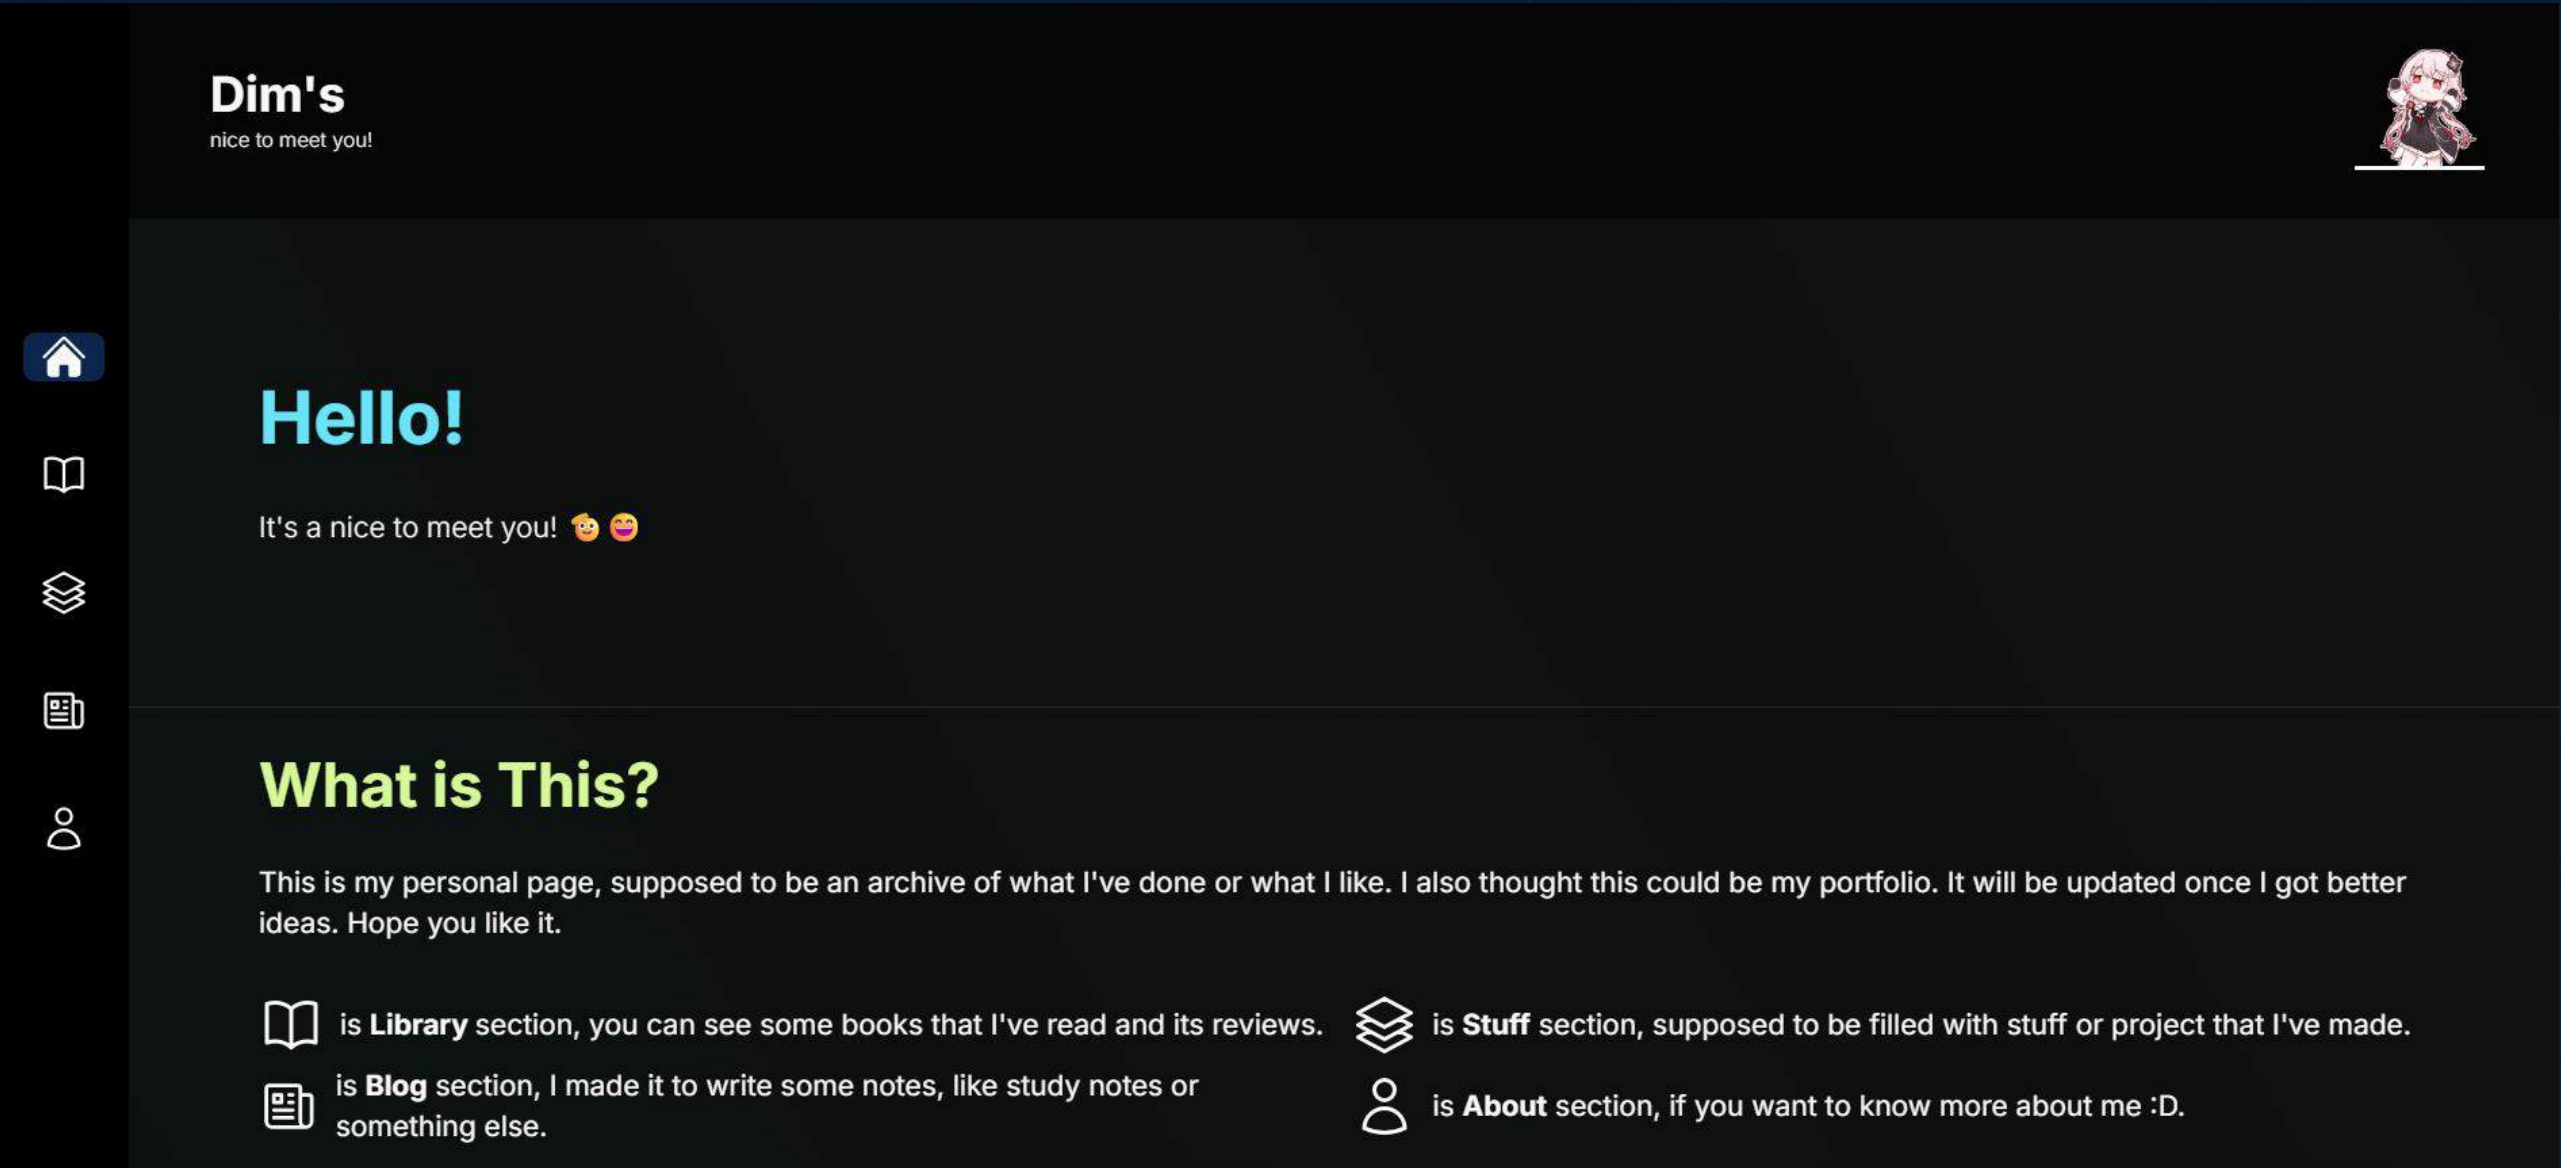

You can check it through : pokemon-cards-finder.vercel.app

Personal Projects

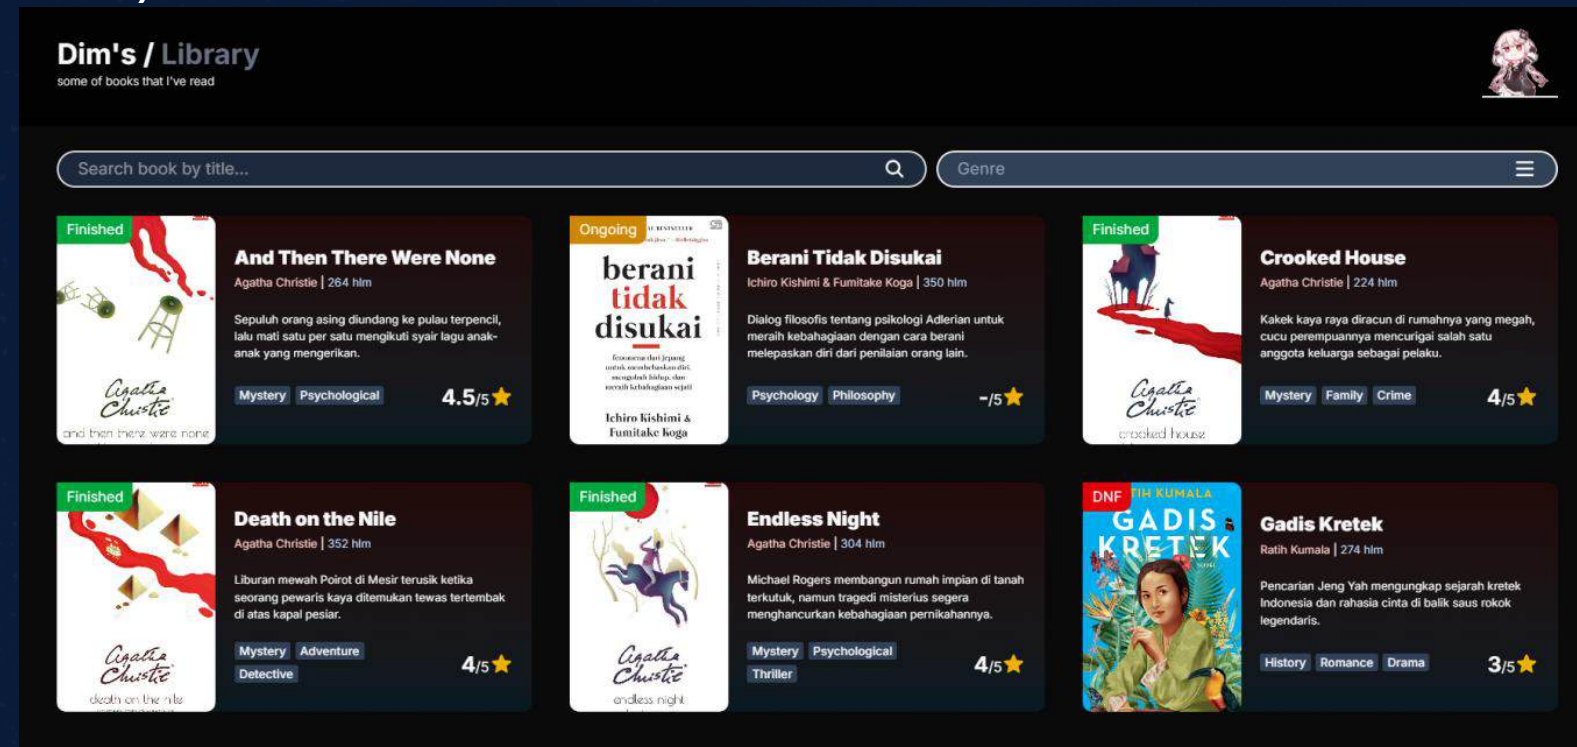

Other than that, I also made my personal page kind of **user-friendly**.
