About me

Hello, my name is **Dimas**. Nice to meet you!

Graphic designs always take my interests. During my college, I often join organizations and events that gives me opportunity to express and improve my interests in graphic designs.

I usually use **Inkscape** for personal work and use **Figma** when working on team projects that allow for collaboration. I'm kind of into **minimalist** design style, but I'm open to learn new styles as well.

Through this portfolio, I want to show some of my works that I've done. If you are interested in working together, I would love to hear from you.

Thank you for visiting my portfolio.
